### ***DataOnline announces L+H Automation, Inc. as representative for the Philippines.***

Berkeley Heights, NJ – Jan 30<sup>th</sup>, 2009.

L+H Automation, Inc. ([www.lh-automation.com.ph](http://www.lh-automation.com.ph)), headquartered in Mandaluyong City, have signed an agreement today to represent DataOnline products and services in the Philippines.

Louie Lim, DataOnline Asia Regional Office manager, commented “L+H Automation has been supporting DataOnline products and services for several years in the Philippines and have now been officially added to our Asian rep network. They are involved in many industries and will not only be supporting our industrial gas business but also promoting our solutions for the water, waste water and chemical industries. L+H Automation have been chosen to represent DataOnline as part of our growth program for Asia. This is another success for our Asia Regional Office, based in Malaysia, who have been chartered with the task of growing our distribution network in Asia”

Mr. Lowell L. Sy, L+H Automation President, added “We are excited about this opportunity to represent DataOnline. We have been working with them for several years now and our customers are finding great value in these remote monitoring solutions. We hope to help DataOnline grow their presence in the Philippines and provide the local expertise and support customers expect.”

### **About DataOnline**

DataOnline® is a leading global provider of M2M (Machine To Machine) solutions specifically for the monitoring of remote industrial assets. DataOnline was selected again as top M2M company in 2009 by M2M Magazine ([www.m2mmag.com](http://www.m2mmag.com)) DataOnline specializes in robust and reliable hardware, data acquisition, wireless communications and advanced Web based information management services. Our total end-to-end solutions are quick, easy and cost effective putting you in control with the power to continuously monitor, assess and manage your remote assets via the Internet. From logistics to utilities and environmental compliance to homeland security, DataOnline has the right monitoring solution for your business application. DataOnline has offices in the US, Europe and Asia.

## About L+H Automation, Inc.

L+H Automation, Inc., established in 1995, is a Filipino Company specializing in:

1. Industrial automation, instrumentation, and weighing technologies, products, and services.
2. Engineering and Turnkey projects for the construction and commissioning of complete industrial plant systems.
3. Supply of practically all types of manufacturing equipment for the food and beverage, consumer, and cryogenics industries.

L+H Automation is highly committed to provide its customers timely, reliable, cost-effective, high quality and state of the art services and solutions. Our Mission is to promote leading brands whose energies deliver superior product value where Customer Satisfaction is the number one concern.

Thus, DataOnline Telemetry Systems is an excellent addition to the world-class products under the distributorship of L+H Automation.

The customers of L+H Automation include prominent multinational companies such as Nestle, Monde-Nissin, Coca-Cola, Pepsi, Del Monte, Procter & Gamble, Shell, Chevron, DHL, UPS, Goodyear, Philip Morris, Texas Instruments, CIGI-Linde, Air Liquide, and Ingasco-Taiyo Nippon Sanso.

L+H Automation has training and demo rooms and equipment for in-house seminars to provide continuous transfer of information and technology to customers. In addition, L+H Automation has a Service Center to support the repairs and maintenance requirements of all its product lines.

The Technical Support Group of L+H Automation provides customized technical services to customers based on their respective needs. Our Technical Support Personnel are regularly sent to international trainings to ensure up-to-date expertise and professional service that our customers and principals expect.
