### ***DataOnline announces EDT Pty. Ltd., Inc. as representative for Australasia.***

Berkeley Heights, NJ – July 23<sup>rd</sup>, 2009.

Electrical Distribution & Transmission Pty. Ltd. (EDT) ([www.edt.com.au](http://www.edt.com.au)), headquartered in Melbourne, Australia, have signed an agreement today to represent DataOnline products and services in Australasia.

Robert Barnacle, DataOnline President, commented "I am pleased to welcome EDT to the DOL family of representatives. They are a well established company with the resources and experience we look for as we grow our global rep network. EDT will not only be supporting our industrial gas business but also promoting our solutions for the utility, water, waste water and chemical industries throughout Australasia.

Grattan Fitzgerald, EDT Managing Director, added "We are excited about this opportunity to represent DataOnline. It fits perfectly with our longer term objectives. DataOnline is a "company on the move" with a unique and exceptional range of capability, totally suited to the demands of users in the Australasian region."

### **About DataOnline**

DataOnline® is a leading global provider of M2M (Machine To Machine) solutions specifically for the monitoring of remote industrial assets. DataOnline was selected again as top M2M company in 2009 by M2M Magazine ([www.m2mmag.com](http://www.m2mmag.com)) DataOnline specializes in robust and reliable hardware, data acquisition, wireless communications and advanced Web based information management services. Our total end-to-end solutions are quick, easy and cost effective putting you in control with the power to continuously monitor, assess and manage your remote assets via the Internet. From logistics to maintenance and environmental compliance to homeland security, DataOnline has the right monitoring solution for your business application. DataOnline has offices in the US, Europe and Asia.

Additional information about DataOnline, including the company's latest news releases, can be found at DataOnline's World Wide Web site at [www.dataonline.com](http://www.dataonline.com) .

DataOnline® is a registered trademark of DataOnline LLC.

## **About EDT**

EDT have been supplying Australian power utilities, large industrial/mining operations, and other owners of electrical infrastructure assets, for almost 20 years with high-class transmission and distribution equipment and solutions. The company was created to source and supply equipment from well known, specialist, independent companies located in the USA, Europe, and the UK producing products for the electrical power industry. Today EDT is accepted as one of Australia's leading entities in the field.

The head office is located in Melbourne with a substantial warehouse and production facility on the site. A branch office is located in Sydney servicing New South Wales and Queensland clients.

Recently, EDT has increased its capabilities to embrace next generation technologies relating to optimization of asset performance and improved return on plant investments. With the gas, water and power industries increasingly coming together via common ownership, or technologies becoming multi functional, EDT has recognized that the DataOnline products are extremely relevant to be achieving common objectives.

Hence EDT will bring to DataOnline increased expertise to not only address the existing need for monitoring of remote assets, but will enhance the competencies of DataOnline to undertake wider applications world-wide.
