AIIGMA, the All India Industrial Gas Manufacturers Association, will be holding only its third seminar outside of India. Over 300 delegates are anticipated to attend representing both industrial gas manufacturers and equipment and service suppliers.

DataOnline has its Asia Regional Office (ARO) located in Kuala Lumpur, Malaysia. Louie Lim, DataOnline's ARO manager, commented "The seminar looks like it will be extremely well attended and this is a great opportunity to follow up on the interest shown in DataOnline's products and services at last year's AIIGMA seminar in Kuala Lumpur. Telemetry is not widely used in India, but there has been significant uptake in the past 12 months and several projects are underway as we introduce our technology to help the local Industrial Gas companies operate their supply chain more efficiently."
